CIRCULAR ECONOMY AND HEALTH: OPPORTUNITIES AND RISKS

Energy

- Benefits to occupational health & safety, respiratory & mental health.
- Improvements in cardiovascular/respiratory heat-related conditions, heat-related impacts & lower risks from extreme climate events

Waste

- Reduced cancer, negative birth outcomes, & respiratory risks
- Reduced costs allow improved health services across all endpoints.

Food

- Reduced malnutrition & other poor diet related endpoints
- Reduction in poor-diet-related conditions, obesity, various cancers

Philips – Pay Per Lux

“I’m not interested in the product, just the performance. I want to buy light, and nothing else.”

Schipol Airport

“The light as a service means that, Schiphol pays for the light it uses, while Philips remains the owner of all fixtures and installations.
