# Princess Maxima Center for pediatric oncology

- around 600 children in the Netherlands get cancer every year
- one in four children diagnosed with cancer dies
- aim to accelerate advances in treatment.
- highly complex care and research for children with cancer in one

## **Princess Maxima Center for pediatric oncology**

We want to **cure as many children** and adolescents with cancer as possible, as quickly as possible —

and do this **without compromising their quality of life**, so that they will be able to achieve their full potential as members of society.

## Princess Maxima Center for pediatric oncology

The Princess Máxima Center is also unique in its focus on **patient- and family-centered care** and support. It wants to make sure that cancer interferes as little as possible with a **child's development and normal family life.**

- each child one room
- with connected parents room
- each unit an outside space
- nurse desk outside the room
